

## Day-by-day Program

## **11<sup>th</sup> September, Monday**

- 9:00 9:15 Welcome and opening words (Helena Bujdáková, the chair of the training school)
- 9:15 9:45 Maria Luísa Jordão: Mixed biofilms and Infection
- **9:45 10:15** Elisa Borghi: *Galleria mellonella* as an *in vivo* model for infectious and non-communicable diseases
- **10:15 10:45** Eduard Torrents Serra: *Galleria mellonella* larvae: An effective model for studying bacterial infections and nanotoxicology
- 10:45 11:10 Coffee break
- **11:10 11:30** Group photo
- **11:30 12:00** Joanna Nakonieczna: Photodynamic inactivation of ESCAPE pathogens: *in vitro* and *in vivo* studies (online)
- 12:00 13:50 Lunch and coffee
- **14:00 14:30** Juliana Campos Junqueira: Exploring the *Galleria mellonella* model to study antimicrobial photodynamic therapy (online)
- **14:30 16:30** Theoretical preparation for practical training (Helena Bujdáková) Practical training: Preparation of biofilms *in vitro*

### 12<sup>th</sup> September, Tuesday

- 9:00 13:00 Practical training: Treatment of G. mellonella infected with S. aureus by PDI
- 13:00 14:30 Lunch and coffee
- 14:30 16:00 Practical training: In vitro preparation of mixed biofilms (C. albicans/S. aureus)
- 18:30 Dinner (Social Event)

### 13<sup>th</sup> September, Wednesday

- **9:00 13:00** Practical training: PDI of mixed biofilms *in vitro*
- 13:00 14:30 Lunch and coffee
- **14:30 15:30** Juraj Bujdák and Marek Pribus: Spectroscopy in biological research Practical: UV-Vis spectroscopy in preparation of photoactive molecules
- 15:30 16:30 Practical training: Control of larvae survival

# 14<sup>th</sup> September, Thursday

- **9:00 12:30** Practical training: Isolation of RNA from *G. mellonella* larvae Evaluation of mixed biofilms
- 12:30 14:00 Lunch and coffee
- 14:00 16:30 Practical training: Microscopy of mixed biofilms
- 16:30 16:45 Closing words
