

The Advisory board has been established as the noncommittal support structure for the General Assembly of CEMBO project. Four people have been invited to provide some advice from different areas of work according to the current issues associated with the project: the Highschool biology teacher, the student in Biology at Bachelor degree, the Medical Doctor working in the science and the Head of a company for DNA sequencing analyses working both, in practice & research.

Table 1 Members of the Advisory board and the consulted issues during the project

Name	Job	Support in questions about
Viera Klimeková, MSc.	High school teacher	Organization of events (Training School, Workshops, International Conference) GDPR and promoting a gender balance
Bc. Simon Ďuran	Student	Communication through social media Enhancing motivation of YCIs and ESRs
Assoc.prof.Dr. Katarína Šoltys	Company leader	Financial and administrative management Cooperation between scientists and companies
Assoc.prof.med.Dr. Adriana Liptáková, MPH	Physician	Research – improvement of scientific output Funding opportunities

The CU team has discussed regularly actual problems with the members of advisory board. One mutual meeting took place on the 3rd of August 2023 on-line *via* MS Teams, where the following issues were discussed: a quick overview of CEMBO project, the work packages, deliverables and milestones; an assessing the solutions of individual tasks within the project from different points of view; an evaluation of positives and negatives of the project; a discussing of possible obstacles in the project management raised from the national rules & directives in Slovakia, or internal institutional rules at CU.
