

During CEMBO project, CU Team has fully adopted the European General Data Protection Regulation (GDPR) in all its activities & tasks: e.g., in organization of events in regards of a sensitive data collection of event members; in creating of the Data Management Plan; in mutual consortium publications; etc. This was all done according to the fair data principles to make data findable, accessible, interoperable & reusable. This way CU Team has created a successful collection, storage & management of the data in duration of CEMBO project, furthermore once the project will be finished.

As per mentioned in the Grant Agreement, institutionally at Comenius University, there has been established the Ethical Code of CU (the Internal Directive no. 23/2016) and Faculty of Natural Sciences' Internal Directive no. 6/2019. CU's GDPR's policy is available on the following link: <https://uniba.sk/en/privacy-policy/>

The plan for GDPR in Slovakia, thus at Comenius University in Bratislava has set the obligation to protect data for research purposes. Moreover, at Comenius University there has been established a function of the Data Protection Officer (DPO) with the contact: [dpo@uniba.sk](mailto:dpo@uniba.sk). DPO assists all the researchers to formulate consents and other necessary documents & procedures.
